- Draft (motor up)19" | 0.48 m
- Beam 8' 6" | 2.59 m
- Bridge clearance 8' 2" | 2.49 m
- Fuel capacity 116 US gal | 439.1 L
- Water capacity 22 US gal | 83.3 L
- Waste capacity 11 US gal | 41.6 L
- Weight, dry 6,200 lbs | 2,812 kg
- Engine Yamaha F250 outboard

The C-24 Sport Coupe is the open version of our popular Cutwater 24 Coupe. Designed and manufactured in the USA. Speed, comfort, value, and FUN all combine for the boat ownership experience of a lifetime. Adventuring solo or with the family, this fast sport cruiser will serve you well. Whether you're new to boating, looking for the perfect fishing machine, enjoying water-sports, or excited to explore distant waterways, you'll be proud of your decision to cruise in a C-24 Sport Coupe.

The C-24 SC is named for its open, airy design that truly brings the outside in. The side windows and rear bulkhead open with removable enclosures that are perfect for keeping you close to the action. The C-24 SC provides all the comforts of home with a private stateroom and head, two sinks with hot and cold water, a third transom mounted sink and shower, microwave, and refrigerator/freezer. The forward stateroom features wrap around seating and a high/low table that drops to complete the forward berth for a comfortable night's sleep. The main salon has a dinette for four that transforms into an additional berth for two.

Powered by a 250 HP outboard, the C-24 SC is fast and efficient. Its advanced hull design incorporates an innovative combination of a 24° deep-V hull for a smooth ride, an 11° keel pad for planing stability, and reversed chines for quick planing, and reduced cornering roll. The double-stepped hull increases efficiency and performance, reduces fuel consumption, and contributes to her quick time to plane. The C-24 SC hull also incorporates our Laminar Flow Interrupter technology for smooth, positive cornering.

The C-24 SC comes comfortably equipped to cruise and play. Cutwater Boats include more standard features than any other manufacturer. Standard features on the C-24 SC include a navigation package starring the Garmin 943xsv GPS chartplotter with sonar, color Yamaha engine display, VHF radio, Bluetooth enabled stereo entertainment system, LED lighting, marine head with holding tank, sport racks, built-in rod holders, fish box, rear-facing fishing or entertaining seats, integrated transom cooler, concealed ski tow, our built-in trailer lights, foldaway cockpit seating, cockpit bolster cushions, and much more!

If you wish to upgrade your C-24 SC, we offer an expansive list of options, such as a generator, air conditioning, diesel heat, electric grill, aluminum trailer, auxiliary motor package, and vibrant hull color upgrades, among others.

MODEL FEATURES

ADVANCED CUTWATER HULL

The C-24 SC hull features an innovative combination of a steep, deep-V hull for a smooth ride, a keel pad for planing stability, and reversed chines for quick planing and reduced cornering roll. The double-stepped hull increases efficiency and performance and reduces fuel consumption while the laminar flow interrupters provide smooth, positive cornering performance.

GARMIN 943XSV CHARTPLOTTER

Navigation is fun and accurate with the Garmin 943xsv Chartplotter with sonar. Easily monitor fuel flow, engine data, bottom conditions, GPS location, tides and much more.

BEACHING LADDER

Access to the sand bar is a breeze with an integrated telescopic beaching ladder located in the bow pulpit. The four rung stainless steel ladder telescopes out to reach low to the shoreline.

CUTWATER SPORT CABIN

The cabin on the C-24 SC is packed with cruising comforts not found on common sport boats. True to the Cutwater Do-It-All heritage, the stateroom on the C-24 SC is a comfortable and secure escape, complete with a marine head and shower. The cabin's open window design is perfect for warm weather and can be fitted with an Strataglass enclosure for cooler climates.

TRANSOM UTILITY STATION

At the transom you'll find a covered sink with prep station and a retractable ski pylon. You can further outfit this space for cruising and fishing by adding a Kenyon electric grill and/or livewell and raw water washdown system.

RELIABLE YAMAHA OUTBOARD POWER

The C-24 SC is powered by a Yamaha F250, which delivers outstanding performance and efficiency. A multifunction LCD displays key information such as RPMs and fuel flow. Shift and throttle controls are electronic.

STANDARD FEATURES

PERFORMANCE

250 HP Yamaha F250 outboard
Double stepped hull
Electric trim tabs
Laminar flow interrupters
Bow thruster
Trailerable - 8' 6" beam

ACCOMMODATIONS & INTERIOR COMFORT

Cabin drink holders, 2
Curtains for privacy
